

Policy on accidents and the administration of Medicines

Medical Attention

If an accident occurs in the school yard or classroom, a teacher or Special Needs Assistant will need to attend to the child/children.

If a teacher feels that the child needs medical attention from a doctor in the wake of an accident or illness, the teacher will generally telephone the parents of the child and request that the parents take the child to a medical surgery. In the event of the parents not being available or in the case of an emergency, two staff members will take the child to the surgery and notify parents afterwards, provided that the parents have consented to this.

In the event of an emergency occurring, I hereby consent to the above arrangement for the duration of my children's attendance in St. Brigid's School, Drumcong in the event of an accident at the school.
